# M79 - Profibus DP Slave Interface

- Profibus DP slave (DIN19245)
- Isolated RS485
- Local 16-bit CPU
- 12 Mbit/s data transfer rate
- Complete Softing Profibus software on board
- Compatible with Softing tools

The mezzanine card M79 M-Module is a Profibus DP (Distributed Peripherals) slave interface based on the Infineon C165 CPU. It is thus an ideal interface solution for intelligent remote I/O applications via a very popular fieldbus standard.

The C165 CPU handles communication with the host CPU via the on-board shared DRAM. The advantage of this Profibus implementation is that the complete Profibus protocol stack runs locally on the M-Module with very reduced interaction of the host CPU. The RS485 Profibus interface (9-pin D-Sub) allows selectable transmission rates from 9.6 kbit/s up to 12 Mbit/s. The optically isolated interface is supplied by an on-board DC/DC converter. The output is short-circuit

The M79 comes with 512 KB local Flash, 1 MB local SRAM and 16 KB dual-ported RAM.

protected.

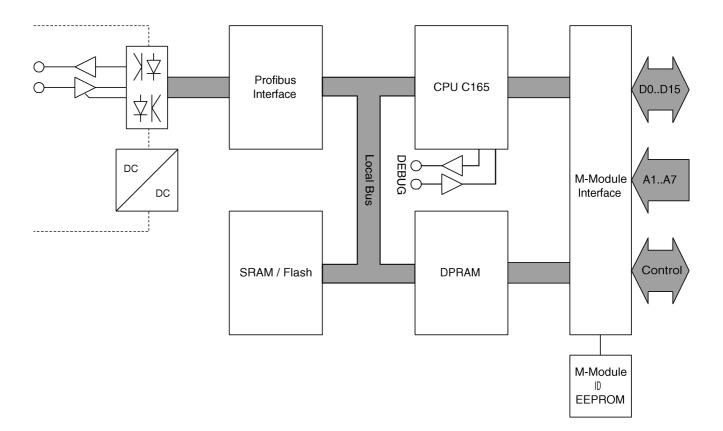

Profibus slave functionality comprises initialization and termination of slaves, additional status information on output and input data as well as security services such as DP applications checked by a user watchdog or a protocol stack monitored by the application.

The Profibus firmware consists of the true Softing protocol stack. The corresponding driver software comes from MEN and complies with standard Softing tools. It supports configuration of the M79 for each application in a very convenient way. The driver is based on MDIS (MEN Driver Interface System) which makes the M79 ready for use under Windows®, Linux and RTOS environments.

The M79 is based on the M-Module ANSI mezzanine standard. It can be used as an I/O extension in any type of bus system, i.e. CPCI, VME or on any type of stand-alone SBC. Appropriate M-Module carrier cards in 3U, 6U and other formats are available from MEN or other manufacturers.

### **Technical Data**

C165 CPU	<ul> <li>16-bit data bus, 20-bit address bus</li> <li>Complete Profibus DP software on one M-Module</li> <li>Local interrupt controller</li> <li>Hardware watchdog</li> </ul>	
Slave: SPC 3 Profibus Controller	<ul> <li>Up to 12Mbaud data rate</li> <li>8-bit interface (local)</li> <li>Complete DP slave protocol</li> </ul>	
Master: ASPC 2 Profibus Controller	<ul> <li>Optional, for M79 as Profibus Master</li> <li>Up to 12Mbaud data rate</li> <li>16-bit DMA interface (local)</li> <li>Complete bus access protocol</li> <li>Up to 127 active or passive stations</li> </ul>	
Miscellaneous	<ul> <li>1MB shared memory for communication and program</li> <li>Isolated RS485 Profibus interface</li> </ul>	
Peripheral Connections	■ Via front panel on a shielded 9-pin D-Sub receptacle connector	
M-Module Characteristics	■ A08, D16, INTA, IDENT	
Electrical Specifications	<ul> <li>Electrical isolation: 500V DC</li> <li>500V DC between isolated side and digital side</li> <li>Voltage between the connector shield and isolated ground is limited to 180V using a varistor; AC coupling between connector shield and isolated ground through 47nF capacitor</li> <li>Supply voltage/power consumption:         <ul> <li>+5V (4.85V5.25V), 287mA</li> </ul> </li> <li>MTBF: 860,000h @ 40°C (derived from MIL-HDBK-217F)</li> </ul>	
Mechanical Specifications	<ul><li>Dimensions: conforming to M-Module Standard</li><li>Weight: 53g</li></ul>	
Environmental Specifications	<ul> <li>Temperature range (operation):</li> <li>□ 0+60°C or -40+85°C</li> <li>□ Airflow: min. 10m³/h</li> <li>Temperature range (storage): -40+85°C</li> <li>Relative humidity (operation): max. 95% non-condensing</li> <li>Relative humidity (storage): max. 95% non-condensing</li> <li>Altitude: -300m to + 3,000m</li> <li>Shock: 15g/11ms</li> <li>Bump: 10g/16ms</li> <li>Vibration (sinusoidal): 2g/10150Hz</li> <li>Conformal coating on request</li> </ul>	
Safety	■ PCB manufactured with a flammability rating of 94V-0 by UL recognized manufacturers	
EMC	■ Tested according to EN 55022 (radio disturbance), IEC1000-4-2 (ESD) and IEC1000-4-4 (burst)	
Software Support	<ul> <li>Softing protocol portation (ISO/OSI protocol layer 2/DP)</li> <li>MEN Driver Interface System (MDIS for Windows®, Linux, VxWorks®, QNX®, OS-9®)</li> <li>For more information on supported operating system versions and drivers see Downloads.</li> </ul>	

# **Ordering Information**

Standard M79 Models	04M079-00	Profibus slave interface, 0+60°C	
Miscellaneous Accessories	05M000-17	25 mounting screw sets to fix M-Modules on carrier boards	
Software: Linux	This product is designed to work under Linux. See below for potentially available separate software packages from MEN.		
	13M079-06	MDIS4/2004 / MDIS5 low-level driver sources (MEN) for M79	
Software: Windows®	This product is designed to work under Windows®. See below for potentially available separate software packages from MEN.		
	13M079-70	MDIS4/2004 / MDIS5 Windows® driver (MEN) for M79	
Software: VxWorks®	This product is designed to work under VxWorks®. For details regarding supported/unsupported board functions please refer to the corresponding software data sheets.		
	13M079-06	MDIS4/2004 / MDIS5 low-level driver sources (MEN) for M79	
Software: QNX®	This product is designed to work under QNX®. For details regarding supported/unsupported board functions please refer to the corresponding software data sheets.		
	13M079-06	MDIS4/2004 / MDIS5 low-level driver sources (MEN) for M79	
Software: OS-9®	This product is designed to work under OS-9®. For details regarding supported/unsupported board functions please refer to the corresponding software data sheets.		
	13M079-06	MDIS4/2004 / MDIS5 low-level driver sources (MEN) for M79	
For operating systems not mentioned here contact MEN sales.			
Documentation	Compare Chart fieldbus M-Modules » Download		
	20M000-00	M-Module Draft Specification, Rev. 3.0	
	20M079-00	M79 User Manual

The date of issue stated in this data sheet refers to the Technical Data only. Changes in ordering information given herein do not affect the date of issue. All brand or product names are trademarks or registered trademarks of their respective holders.

MEN is not responsible for the results of any actions taken on the basis of information in the publication, nor for any error in or omission from the publication.

MEN expressly disclaims all and any liability and responsibility to any person, whether a reader of the publication or not, in respect of anything, and of the consequences of anything, done or omitted to be done by any such person in reliance, whether wholly or partially, on the whole or any part of the contents of the publication.

The correct function of MEN products in mission-critical and life-critical applications is limited to the environmental specification given for each product in the technical user manual. The correct function of MEN products under extended environmental conditions is limited to the individual requirement specification and subsequent validation documents for each product for the applicable use case and has to be agreed upon in writing by MEN and the customer. Should the customer purchase or use MEN products for any unintended or unauthorized application, the customer shall indemnify and hold MEN and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim or personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that MEN was negligent regarding the design or manufacture of the part.

In no case is MEN liable for the correct function of the technical installation where MEN products are a part of.
